

WELCOME

Your kitchen is the favorite place for so many things: whether it's breakfast with friends or family get-togethers, home working, planning a wedding, partying or cleaning day – the kitchen is the setting for everything that's important to you. This is why there's a lot to be said for seeing the job of planning a new kitchen as what it is: a piece of planning your own personal life. We wish you every enjoyment doing precisely this!

Nowhere is individual personality reflected more strongly than in the home. This is where there are no rules and no conformity. This is where the only things that matter are passion, freedom and you yourself. Unique ideas for home living are key to creating your own world and, in this way, to giving your home personality. At the same time, we can witness a return to furnishing ideas from years gone by. Now as ever, quality is the be all and end all. In the timbers used, yet also in the modern finishes given. High-quality glass doors and handleless fronts attractively carry past classics into the here and now. Made with passion and labelled 'Indo Furnishing', hallmark both mean we can guarantee a high-quality, versatile and unique line-up for a home brimming with style and vitality.

VISION

We aspire to be India's modular furniture industry benchmark for design, quality and innovation.

Mission

The company has made the continuous search for quality & innovation its mission, renewing its proposals towards a customer centric approach to the most contemporary lifestyles and trends in modular furniture with exclusive, innovative, quality products.

Values

We are passionate about achieving higher standards of quality and design. We focus on developing leading edge solutions in technology, processes and products. We are bold, agile, courageously taking on challenges, using deep customer insight to develop innovative solutions.

SUSTAINABILITY

An honest commitment to sustain ability and to acting in environmentally friendly way. Providing a safe workplace, respecting the environment, caring for our communities and demonstrating high ethical standards.

RESPONSIBILITY

We invest in our people and partners, enable continuous learning and building caring & collaborative relationship based on trust and mutual respect. Fostering teamwork, nurturing talent, enhancing leadership capability and acting with pace, pride and passion.

Our machinery

Edge banding Machine
completely revised, solid machining units for the highest demands in a new design, a solid, heavy-duty machine base-frame as well as precise dust extraction. The m-motion and x-motion Plus control ensures highest repeatability-setting accuracy and allows you to generate individual machining programs and to minimize setup time for fast processing and material change.

Edge banding Machine
Time as a resource was the focus in developing the tempura series. Processing edges needs to be as quick, easy, and efficient as possible. The tempura series was created for individual customer needs. This allows you to flexibly choose the units in the models or to add the x-motion Plus package.

Edge banding Machine
Time, the most important resource in a modern workshop was one of the main focuses whilst developing the new tempura machine concept. Processing edges needs to be as quick, easy and efficient as possible. To achieve this, the tempura model combines the key characteristics of speed, productivity, flexibility and user comfort in a convincing complete package. The final finishing results when processing both coiled and strip material convince with incredibly high standards, that fulfil the ever increasing demands of edgebanding complete processing.

6 Nos. Panel Saws

The intelligent parallel cutting fence brings superior comfort and impressive productivity. The machine is characterized by a large and powerful circular saw unit with a maximum cutting height of 140 mm when using a \varnothing 400 mm saw blade.

1 Nos. Hot Press

Highest precision and best working comfort at a fair price performance ratio.

2 Nos. Cold Press

High quality yet extremely cost-efficient. Laminate & veneer pressings are feasible with the new Cooled platen presses!

2 Nos. Multi Boring Machines

Maximum precision when dowel boring with the Multi Borer professional. With 29 high quality drilling spindles positioned at 32 mm intervals, drills with a maximum diameter of 35 mm can be used, exact rows of holes and dowel bores are guaranteed.

1 Nos. CNC Machine

Especially developed for universal application, this profitable CNC all-rounder convinces with top precision and impressive productivity when processing various different materials.
